Dear hiring manager

I have been looking to turn my skills into a full-time career. (I have graduated as a computer engineer with an excellent grade from Yarmouk University and currently I am full stack developer trainee at coding Academy by Orange) . This wonderful experience has allowed me to acquire multiple important abilities which are in the job ad on LinkedIn.

Throughout this time, my skill set has grown tremendously, and I feel as though I could be a great addition to your team of workers with a strong desire to learn to work and learn at the same time. I have the required dedication to research and finish these projects within tight deadlines from working on HTML, CSS, Bootstrap, JS, React, and how to make responsive websites also with knowledge Of backend SQL, MYSQL, PHP, and Laravel.

Thank you for your consideration and I look forward to hearing from you
Best Regards

Aiman AL- Jaradat
